

ROUGH SIMON DELA CRUZ

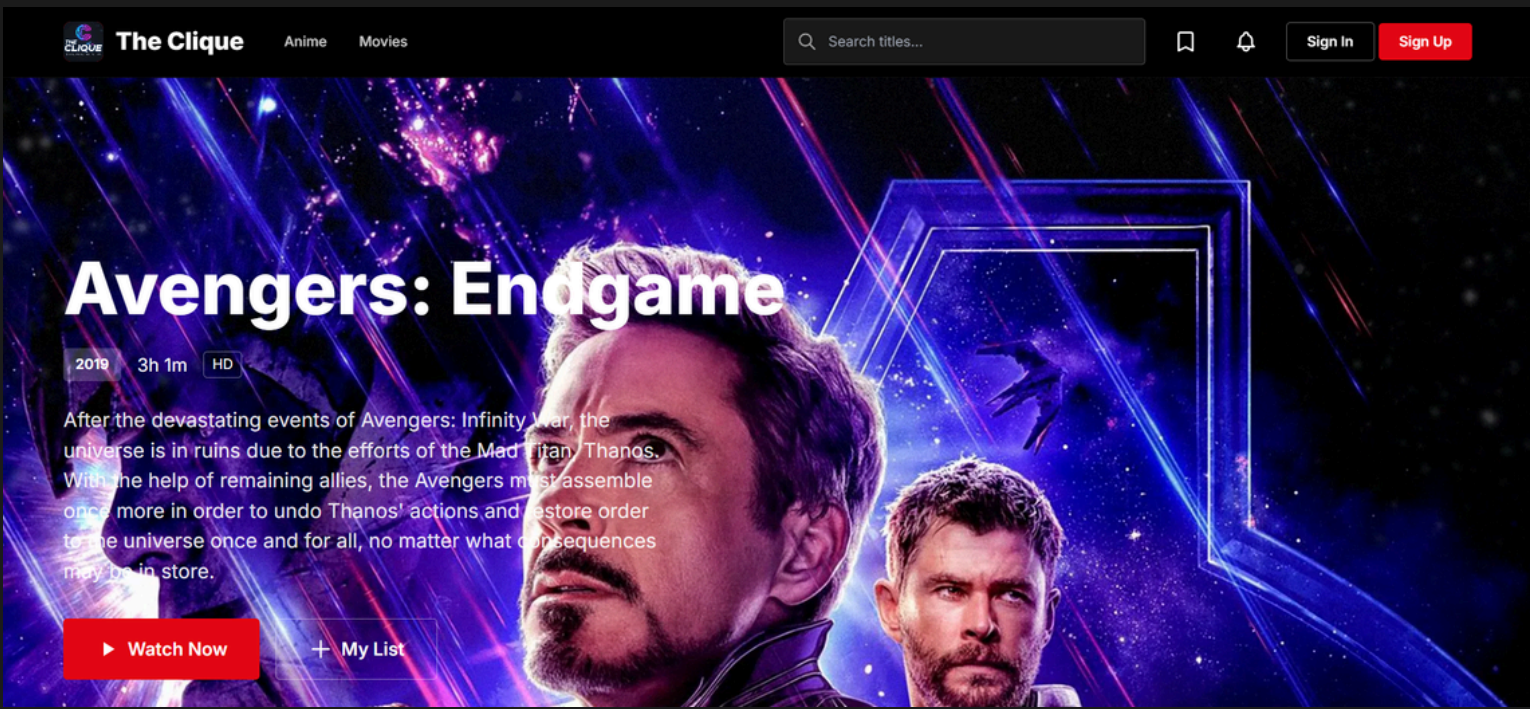

I am Rough Simon Dela Cruz, a 19-year-old Information Technology student from Homestead 1, Talavera, Nueva Ecija

Programming Language:

Python, Java

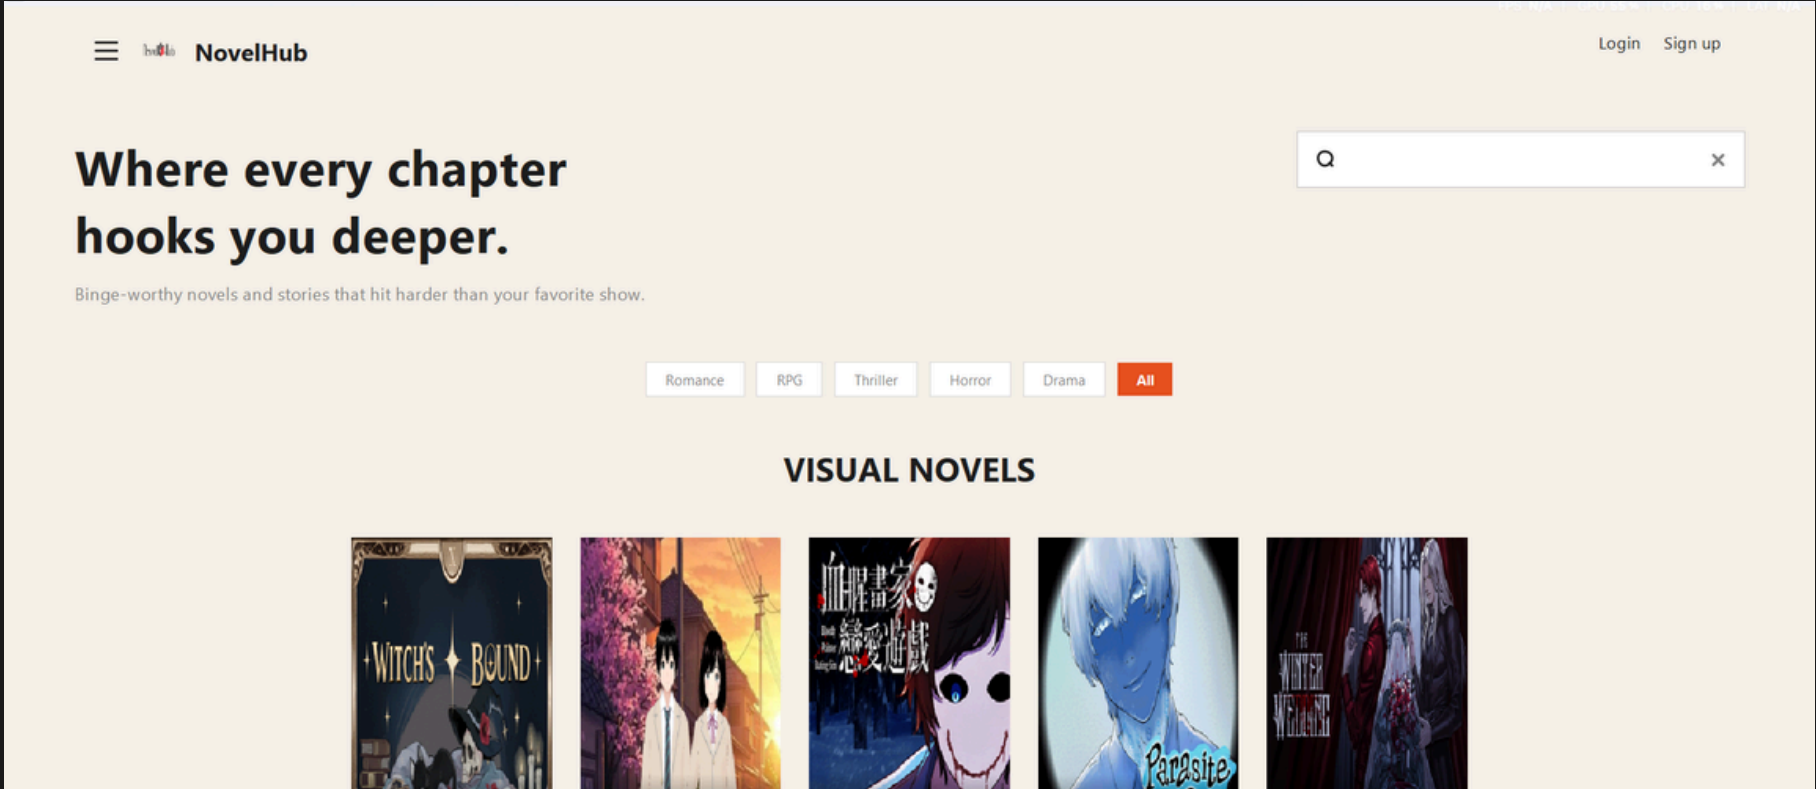

Web Technologies:

HTML

Streaming Website Project

- Overview: A movie streaming website designed to showcase a user-friendly media browsing layout.
- Technology Used: HTML
- Key Features: Organizes video content and movie information into structured, easy-to-navigate categories, demonstrating a strong grasp of fundamental web design.

Java Game Application Project

- Overview: An interactive visual novel game paired with a custom-built launcher system.
- Technology Used: Java
- Key Features: Includes a functional launcher menu that allows users to seamlessly select and start the game. The visual novel itself highlights story-driven gameplay, utilizing underlying Java code to handle branching storylines, user inputs, and visual transitions.
